Experience Workshop's STEAM Exhibit in the Poly-Universe

Connections between mathematics and the arts? Collaborative problem-solving in STEAM? There is a great chance to gain a personal experience on these exciting phenomena on 5 December, 2017, when Experience Workshop's STEAM Exhibit will be opened at Saxon Art Gallery. In addition to the artworks and the crowd of friendly STEAM people, there will be a great amount of Poly-Universe artgame to play with!

Experience Workshop's International Collection of Mathematical Art was established in 2010 in Hungary, then significantly extended in 2016 with an independent collection located in Finland and constantly on tour in the Nordic countries. Experience Workshop's International Collections are all the time growing and containing more than 100 individual pieces by artists from all over the world. Both the Hungarian and Finnish collections are based on the donations of the members of the world's largest mathematics and arts community, Bridges Organization and participants of the International Symmetry Festivals.

Robert Fathauer

Recently, Experience Workshop's international contributions included curating a children-art-in-progress STEAM exhibit at Cape Town Open Design, South Africa and introducing various art pieces as part of Experience Workshop's and Johannes Kepler University's collaborative events at Ars Electronica Festival in Austria.

Our exhibit in the Saxon Art Gallery will show only a tiny bit of Experience Workshop's whole collection.

Opening by Dr. György Darvas, Honorary President of International Symmetry Association and welcoming remarks by Budapest STEAM 2017 Conference's participants Prof. Andrea Kárpáti (Budapest), Prof. Sara Hershkovitz (Tel Aviv), Prof. Noah Dana-Picard (Jerusalem), Prof. Werner Olivier (Port Elisabeth) and László Pálffy (Budapest) mathematician.

Exhibited artists: Javier Barrallo E, Anne Burns USA, Doug Dunham USA, Zsuzsa Dárdai H, Robert Fathauer USA, F. Farkas Tamás H, Paul Gailiunas UK, Mehrdad Garousi IR, John Hiigli USA, Kelle Antal H, Margaret Kepner USA, Teja Krsek SLO, Merrill Lessley & Paul Beale USA, István Orosz H, Reza Sarhangi USA, Saxon Szász János H, Carlo Heinrich Séquin USA

Curator of the thematic exhibitions in Saxon Art Gallery: Zsuzsa Dárdai
